RE: Wildlife Management in Harris County MUD 500 Lakes

This morning, MUD 500's wildlife management contractor caught and removed a 5' alligator in the northern portion of MUD 500's lakes. The contractor does not believe there are any additional alligators in the lakes, but the Houston area is a natural habitat for various wildlife, including alligators. MUD 500's contractor will continue to monitor the lakes for any evidence of additional alligators and take steps to remove them if any are found.

MUD 500 continues to request that residents report any sightings of alligators to its operator, Environmental Development Partners, at (832) 467-1599. MUD 500 encourages your district to share this information with your residents. Please visit MUD 500's website, at <http://www.hcmud500.org>, for additional information.
