Lake 1G Tie Back Wall Repair Update - 1/24/2020

The tie back wall rehabilitation project is scheduled to begin on Monday, January 27th. The project will begin with the installation of a temporary dam at the entrance to Lake 1G, adjacent to the bridge to the Towne Lake Lakehouse. The water level of Lake 1G will then be dropped approximately 2 feet below the normal water surface elevation before the wall repairs begin. For questions about this project, please contact Kara Jackson (kjackson@ehrainc.com) or J.T. Gaden (jgaden@ehrainc.com) with EHRA Engineering.
